Businesses warned to lower prices from June 1

Reports by ZAZALI MUSA, MANJIT KAUR, RAHIMY RAHIM and CRYSTAL CHIAM SHIYING

PETALING JAYA: All registered businesses have been told to lower prices following the Government's move to zero-rate the Goods and Services Tax (GST) from June 1.

Customs director-general Datuk Seri T. Subromaniam said businesses must follow the ruling by passing down the 6% savings to consumers.

"We urge business operators not to exploit the Government's intention to lower prices of goods and services for consumers," he said in a statement.

Maintain Stock Item...

Step 1

Select Data Range and Option :-

Stock Group ☑ `ACC` ...

Category ☐ ...

Customer Price ☐ ...

Supplier Price ☐ ...

Date Item Created ☐

`___` to `___`

☑ Print Stock Control Item
☑ Non-Stock Control Item
☑ Print Active Item
☑ In-Active Item
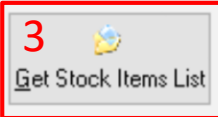

☐ Customer Price
☐ Supplier Price

☐ Grid Mode

Get Stock Items List

Step 2

Rounding Method

◉ Normal
○ Round Up
○ Round Down

Input Value `106.0000` — `5.66%`

Output Result `100.0000`

Round Decimal `2`

☐ 5 Cents Rounding...

Output Value
○ Increase Value
◉ Reduce Value
○ Fixed Value
○ Inclusive Rate

Disc `___`

Date From `___`

Date To `___`

Step 3 : Select the Field(s) to be Update

[Elapsed Time: 00:00:00:318]

☑ Reference Price ☐ Maximum Price ☐ Customer Price ☐ Cust. Disc ☐ Cust. Date From ☐ Cust. Date To
☐ Reference Cost   ☐ Minimum Cost   ☐ Supplier Price ☐ Supp. Disc ☐ Supp.. Date From ☐ Supp. Date To
☐ Minimum Price   ☐ Maximum Cost

☑ Record Change History **Change**

	Code	Description
☑	123	123
☑	ANT	ANTENNA
☐	BOMBOM	BOM of BOM
☐	COVER	HANDPHONE COVER
☑	E-BAT	ERICSSON BATTERY
☐	ETX	ETX

Count = 15

UOM

UOM	Rate	Orig. Ref Price	Ref Price
UNIT	1	10.6	10
CARTOON	12	42.4	40
BOX	60	106	100

Post To A/c

Step 1 : Select your group of item

1. You can select on certain stock group/ category, if you want all items, then left stock group and category blank
2. You can also choose only active item
3. Once your group of item selected, click on Get Stock Items List

Step 2 : Setting on value to be adjust

- Rounding Method (Assuming Round Decimal is 2)
  - Normal : Example : 0.1234 => 0.12
  - Round Up : Example : 0.1234 => 0.13
  - Round Down : Example : 0.1274 => 0.12
- Input Value = Sample Value
- Output Result = Sample Result
- Round decimal = No. of Decimal Point

- Mark down = 5.66 %
  - Why 5.66% instead of 6% ? Refer next slides

Why reduce 5.66% instead 6% ?

30 May 2018 selling price = RM 106 GST Inclusive

01 June 2018 selling Price RM 106 – 5.66% = RM 100

NOT

RM 106 – 6% = RM 99.64

Step 3 : Select fields to be update

➤ Tick on which option you want to adjust / update eg : Reference Price

➤ You can also tick Record change history then system will update this changes history in your note

➤ Once you complete setting, click on Change

Step 4: Check & Post

➤ You can uncheck for certain item that you don't want to update

➤ Orig Ref Price = old price
➤ Ref Price = Price adjusted

➤ Click on Post to A/c then system will auto adjust all the value accordingly to Ref Price
