# How to Load XML Report into SQL

If this XML Report is Customer Aging, go Customer Aging to drag the XML Report , If this XML report is Supplier Aging Report, go to Supplier Aging to drag the XML Report)

1) Open the XML Report & also Customer Aging , drag the XML Report into the Report Name field

2) Double Click on the new report template in blue color.

3) Click on the arrow down key to choose the right template

Eg : If the report Name is Cust-Local-L0-06 Month

    L0 = no special grouping, the template you have to choose eg Cust 06 Month Aging

    L1 = Grouping by 1 level, the template you have to choose eg Cust 06 Month Aging – Level 1

    L2 =Grouping by 2 level, the template you have to choose eg Cust 06 Month Aging – Level 2

Eg : If the report Name is Cust-Local-L0-06 Month

    04 = 04 Month

    06 = 06 Month

    12 = 12 Month
